Betreff **Cooperation**

Hereby we acknowledge our productive cooperation with Vladislav Mazurok and his team at GREEN who developed polymer pipe-production facility SLT Aqua in Togliatti, Russia. We have accomplished several supplies of extrusion lines and spare parts for the facility.

We've known Vladislav Mazurok and his team since 2015 and emphasize their professionalism, trustfulness and responsibility. We had number of negotiations with the team in course of transactions in Russia (Moscow and Togliatti) and Germany (Munich plant of Krauss Maffei) and successfully completed them in 2016 and 2019.

We cherish their dedication to commitments, self-development and acting in good faith.

Taking into consideration our previous cooperation we are looking forward to developing it in the future and recommend GREEN as reputable partner.

With best regards,

Roman Renz
