Letter of Recommendation

We've been working with the team of GREEN since 2009 who supported establishment and development of Russian branch of BLG Logistic. From the very early stages we've been in permanent contact with Managing Director Vladislav Mazurok and his team on various matters that required legal or technical expertise.

We acknowledge their competences, due handling of requests, responsibility, agility and aspiration to develop.

Throughout all these years since 2009 we had the team of GREEN as professional support to all our business activities in Russia and implemented several complicated projects together. We cherish our beneficial cooperation and GREEN's loyalty to the needs of BLG Logistic in course of business.

We believe GREEN satisfies high standards of management and professional service and we may refer the team of GREEN as professional and trustful partners.

With kind regards
